

A Lap Around Telerik Reporting

John Bristowe
Principal Developer Advocate
Telerik

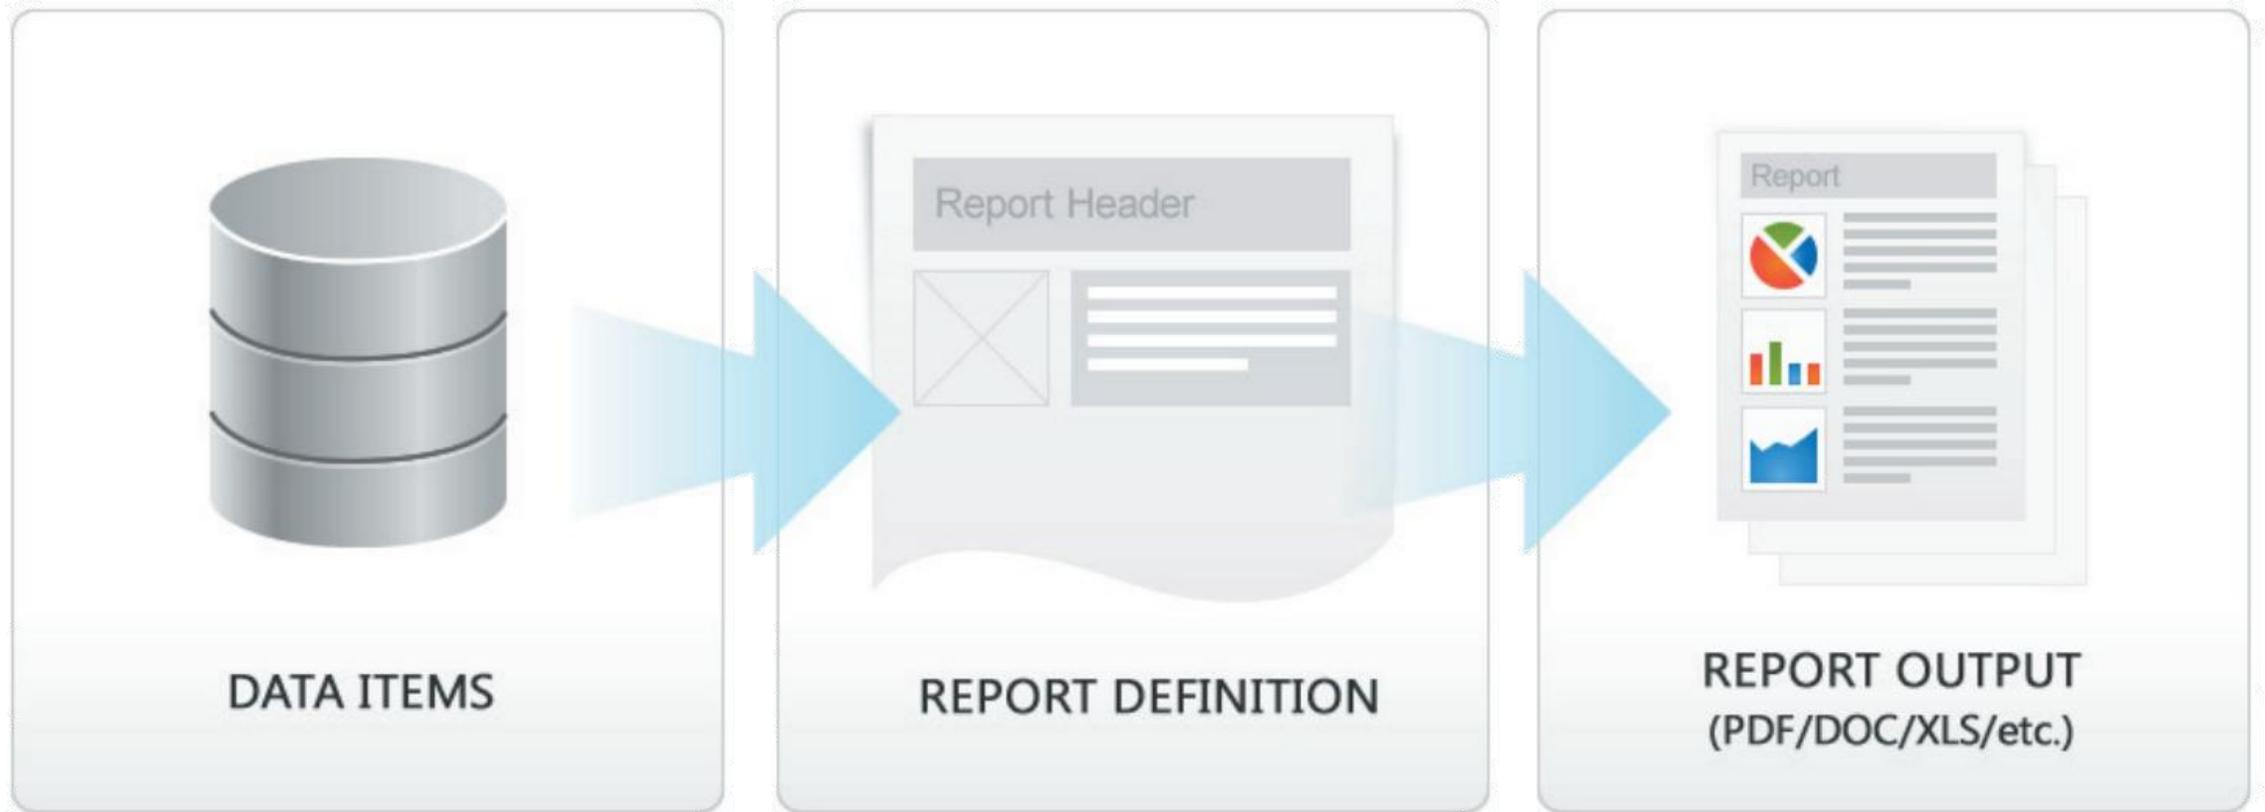

April 21, 2015

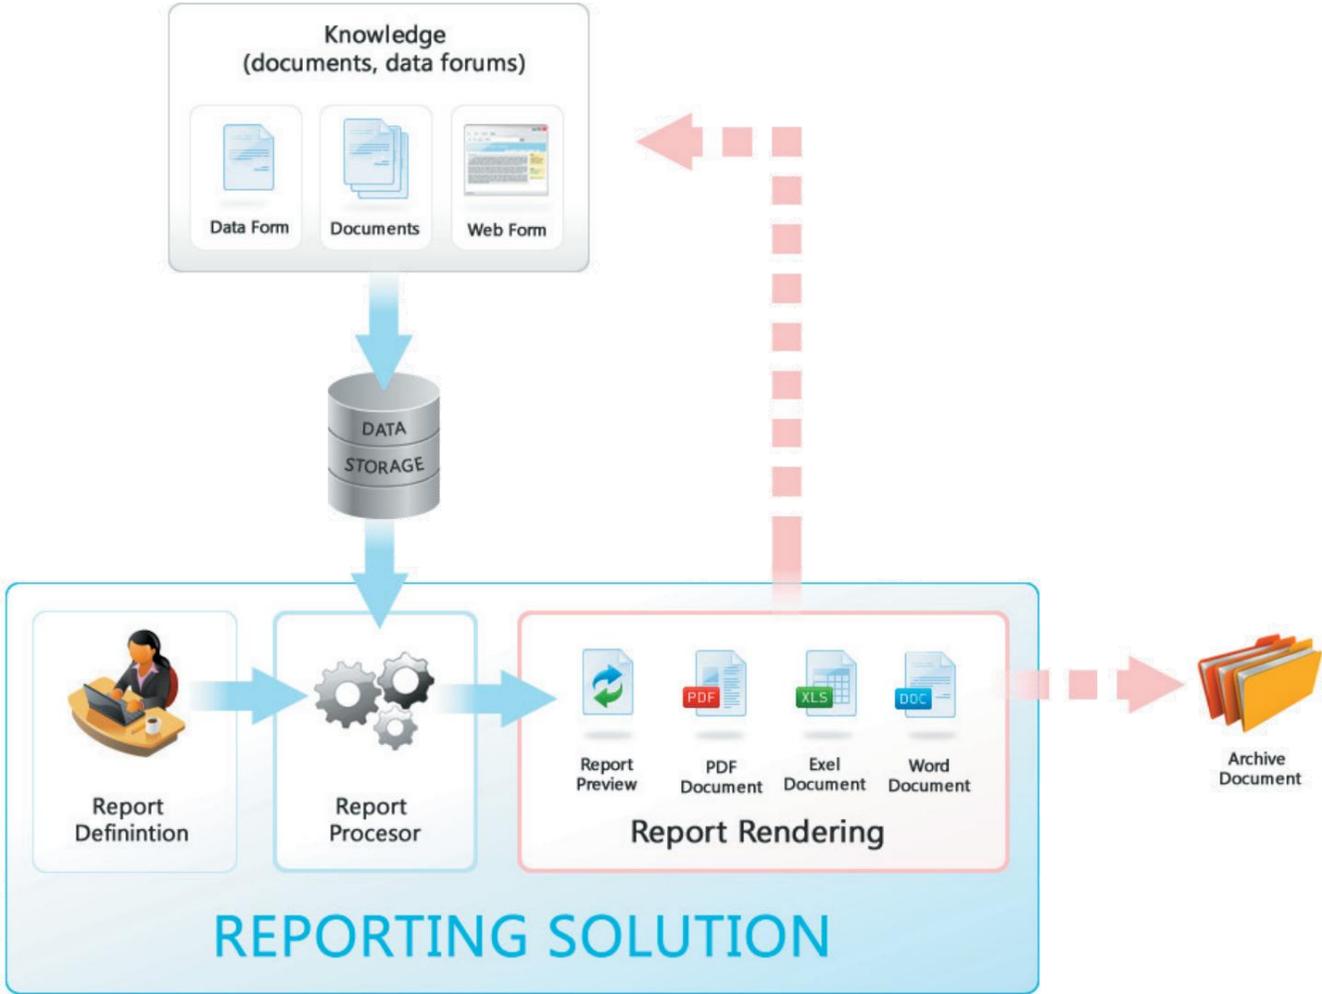

Agenda

- Overview of Telerik Reporting
- Telerik Report Designer
- Visual Studio integration
- Telerik Report Server
- Q&A

Reporting

Reporting

Telerik Reporting

- Complete reporting solution for desktop, mobile, web, and cloud-based applications
 - HTML5, ASP.NET AJAX, ASP.NET MVC, Silverlight, WPF, Windows Forms and Microsoft Azure
- Interactive and reusable reports created by developers in Visual Studio or end users in the Telerik Report Designer
- With the help of Telerik Reporting, end-users can visualize, examine, filter and probe data, export reports to Excel, Word and PDF for further analysis and sharing and even present them as PowerPoint documents

Report Types

New Report

Choose report type

| Report templates | Data presentation templates |
|---|--|
|  Band Report Wizard Guides you through creating a Band report. |  Crosstab Wizard Guides you through creating a Crosstab report. |
|  Label Report Wizard Guides you through creating a Label report. |  Table Wizard Guides you through creating a Table report. |
|  Invoice Report Wizard Guides you through creating an Invoice report. |  Graph Wizard Guides your through creating a variety of charts. |
|  Blank Report Creates an empty report so you can start building it from scratch. |  Map Wizard Displays report data against a geographical background. |
| |  Choropleth Wizard Displays report data as a map with thematically colored areas. |

Chart Wizards

New Bar Chart, Clustered

Arrange graph fields

Add data fields to define the graph. A field in the Categories list defines the categories displayed by the axes. A field in the Series list defines the different series. A field in the Values list defines the aggregated data values.

Available fields:

- employeesDataSource
 - Employee
 - EmployeeID
 - ProductCategory
 - ProductSubcategory
 - SubTotal

Categories:

- Employee

Series:

- ProductCategory

Values:

- Sum(SubTotal)

Telerik Report Designer

- Standalone, WYSIWYG designer for creating reports
- Provides inline previews
- Features drag-and-drop report creation and step-by-step wizards
- Easily add tables, graphs, shapes, etc.
- Explorers for setting properties, data connectivity, groups, parameters, report structure

The screenshot displays the Telerik Report Designer application window. The main workspace shows a report design with two charts. The top chart is a horizontal bar chart titled 'Top 10 Stores' with the following data:

| Name | Value |
|----------------------------|-----------|
| David R Campbell | \$28,000K |
| Pamela O Ansmann-Wolfe | \$25,000K |
| Ranjit R Varkey Chudukatil | \$22,000K |

The bottom chart is a pie chart titled 'Top 10 Stores' with the following data:

| Store Name | Value |
|---------------------------|-----------|
| Corner Bicycle Supply | \$45,984K |
| Totes & Baskets Company | \$36,800K |
| Field Trip Store | \$38,694K |
| Registered Cycle Store | \$38,829K |
| Outdoor Equipment Store | \$41,947K |
| Top Sports Supply | \$41,705K |
| Eastside Department Store | \$41,357K |
| Retail Mall | \$41,129K |
| Metropolitan Equipment | \$41,105K |
| Vigorous Exercise Company | \$40,305K |

The interface includes a ribbon with tabs for File, Home, Insert, Data, View, Design, and Format. The Design tab is active, showing various chart and report item options. On the right, there are panels for Data Explorer, Report Explorer, and Properties. The Properties panel is currently showing the GraphLegend settings, including Appearance, Misc, Location, Position, Size, and Title. The Group Explorer at the bottom shows the report structure with two groups: 'storeNameGroup1' and 'categoryGroup1'.
